

**News DE BORD INTERNATIONAL***December 2019***Merry Christmas from DE BORD INTERNATIONAL**

We hope for opportunities and chances for everyone.

In particular for individuals who have lost an important constituent for sense and purpose in everyday life: their jobs.

Strains are especially high for the long-term unemployed. Important needs such as the feeling of belonging, appreciation or autonomy are less and less met the longer an individual remains unemployed.

In Switzerland, job seekers are being supported to reenter the market through the passionate and voluntary work of the «Lernwerk». With their 287 associate companys or in their own wood workshop they provide access to a regular and meaningful commitment to work, which may also serve as a steppingstone for getting back into the job market. We gladly support this highly admirable commitment with a donation and hope that we do meet your esprit de corps for Christmas as well.

With our warmest wishes for Christmas

Your team of DE BORD INTERNATIONAL
